

JYOTI SAGAR

Winner of Lifetime Achievement Awards

50 Years of Revolutionizing Legal Industry

Jyoti Sagar is a doyen of the Indian legal industry who has made exceptional contributions to the community in the past five decades. He has established two of India's finest law firms - JSA and K&S Partners - in the early 1990s, bringing a paradigm shift to law firm ownership and management. The firms are the first of their kind; non-family-led and democratically managed law firms, that believe in absolute meritocracy and equality, with no glass ceilings for professional growth of their members.

Jyoti's commitment to equality extends beyond business. His philanthropic efforts are largely directed towards sustainable development and providing healthcare and education to children from marginalized communities. He founded Genesis Foundation, an NGO, which provides medical assistance to orphans and underprivileged children with heart conditions.
