## Practice Focus

### Patents (Computers and Electronics)

#### Practice Focus – Patents (Computer Science Engineering)

Priyanka handles patent drafting, prosecution and filing in the areas of computer science, computer applications and software, and electronics.

She has experience in handling patent matters in wide technology areas that include computer networks, embedded systems, image processing techniques, data analytics, network security, cyber security, automotive solutions, Internet of Things (IoT), cloud computing, industrial automation, digital payments, telecommunication, Artificial Intelligence, medical devices, blockchain, and information management.

She regularly advises domestic and foreign clients on issues related to patentability, freedom-to-operate, oppositions, infringements and performs patentability search. She assists Indian and foreign clients to obtain patent protection both within and outside India.

Priyanka also regularly appears before Indian Patent Office (IPO) in connection with Patent Prosecution.

She works with corporate clients, foreign associates, multinationals, MSMEs, start-ups, and universities.

Priyanka has a rich experience in conducting ideation sessions for various clients, conducting seminars on aspects related to patentability and infringement, and managing client portfolios.
