

Nishanth K Prasad | Partner

Qualification

- B.E. (Electronics and Communication)
- Registered Patent Agent

Practice Focus

Patents (Electronics and Communication Engineering)

Nishanth handles patent drafting, filing, and prosecution in the areas of electronics, electrical, and computer science. He has been a patent professional since 2015.

Nishanth has experience in handling matters in wide technology areas of embedded systems, telecommunication, semiconductors, industrial automation, power systems, automotive solutions, Internet of Things (IoT), sensor technology, medical devices, aviation, robotics, cyber security, and data science.

Nishanth also provides opinions on freedom-to-operate, patent landscapes, due diligence, budget analysis, infringement analysis, and patentability opinions.

He has worked with corporate clients, foreign clients, foreign associates, multinationals, MSMEs, start-ups, and universities to obtain patent protection both in India and abroad.

Nishanth regularly appears before the Indian Patent Office in prosecution of patent applications.
