Practice Focus

Patents (Pharma and Chemistry)

Anamika has been practicing in the field of patent law since 2018. She works in the areas of pharmaceuticals, biopharmaceuticals, medical diagnostics, therapeutics, organic chemistry, biochemistry, biotechnology, food, polymer chemistry, and mechanical inventions. Her technical expertise helps her understand the perspective of inventors.

She handles patent drafting of provisional and complete specifications and filing and prosecution for domestic and international applicants. She also assists clients with patent search, and analytics and provides opinions on freedom-to-operate and infringement analysis.

In addition to her experience in patents, she has four years of experience in the research and development of new chemical entities (NCE) in pharmaceutical companies and research institutes.

She regularly appears before the Indian Patent Office for the prosecution of Indian applications.
