Practice Focus

Mechanical Engineering, Design, Patent & Design Valuation

Dhyumanth handles patent drafting, filing, and prosecution in the areas of mechanical, metallurgy, and nanotechnology. He also handles filing, and prosecution of Industrial Designs.

His background in research enables him to manage a wide range of patent matters in these technological fields. He also provides opinions on patentability, invalidity and Freedom-to-Operate.

He has research experience in nano fabrics, specifically creating polymer nano fabrics for hydrogen storage. Besides, he has also worked on a project involving high chrome nickel alloy.

Prior to joining the firm, he worked as a design drafter at an engineering company.
