Practice Focus

Patents (Biotechnology and Biosciences)

Sneha handles patent matters in the fields of biotechnology, genetic engineering, molecular biology, biochemistry, therapeutics, medical diagnostics, chemistry, material science, metallurgy, polymer chemistry, pharmaceuticals, bio-pharmaceutical, food technology, textiles/fabric technology, nanotechnology, organic chemistry and related technology areas.

She assists clients in drafting, filing and prosecution of Indian and International patent applications; conducts invention capturing sessions, patent and non-patent searches for clients – including landscape, patentability, validity and freedom to operate searches; and renders opinion/advise with regard to patentability, infringement, enforcement, due-diligence and matters pertaining to The Biological Diversity Act. She also works on collaborative projects on Patent Valuation.

She regularly appears before the Indian Patent Office, in connection with prosecution of patent applications, oppositions and related matters.
