Practice Focus

Mechanical Engineering, Design, Patent & Design Valuation

Sachin handles patent drafting, filing and prosecution in the areas of mechanical engineering. He also handles filing and prosecution of industrial designs.

He specializes in patenting across diverse areas of mechanical engineering, including heat pumps, HVAC&R systems, advanced power generation, renewable energy systems, hydrogen storage, medical technology, automotive innovations, additive manufacturing and 3D printing.

He also supports clients in patent prior art search. Before joining K&S Partners, Sachin has three years of research experience in the domains of heat pumps and refrigeration technology.
