Practice Focus

Patents (Pharma and Chemistry)

Naresh commenced his patent practice in 2010. He works with various industries, such as polymer, chemistry, gas and petrochemicals, material science, metallurgy, pharmaceutical, and medical diagnostics. In addition, he has experience in assisting clients to protect a wide variety of inventions, such as pertaining to the new chemical entity (NCE), composites, ceramics, batteries, adhesives, coatings, inks, thermoplastics, fertilizers, pesticides, peptides, peptidomimetics, drug delivery systems, medical devices, vaccines, food and beverage products, dietary supplements, alloys, and synthetic methods (organic, inorganic, enzymatic, etc.).

He advises domestic and international clients on all aspects of patents, such as drafting, prosecution, and opposition of patents. He also assists them in searching and analytics, rendering opinions on the validity and enforcement of patents, patent landscape, patentability, freedom to operate, due diligence, and infringement analysis under Indian laws.

He regularly appears before the Indian Patent Office for prosecution and enforcement of patent rights.

He is a regular speaker at various domestic IP forums and is involved in IP awareness and training programs.

Prior to joining the firm, he worked with a prominent life sciences research organization in Bangalore.
