Practice Focus

Patents (Computers & Electronics)

Abhimanyu has been working in the field of intellectual property since 2019. He demonstrates proficiency in patenting inventions that are Software and Artificial Intelligence (AI)-related.

Abhimanyu has experience handling patent drafting and prosecution in India, the US, and Europe. He has been successful in getting several software patents in the USPTO for technologies that typically face subject-matter eligibility rejections.

Abhimanyu is an expert in patent matters in technology areas of AI, SaaS Products, Cloud Computing, AR/VR, Computer Vision, Semi-Conductors, Satellite Image Processing, Cryptography, And Cybersecurity.

He works with corporate clients, deep-tech start-ups, foreign associates, multinationals, MSMEs, and educational institutions to obtain patent protection both within and outside India.
