Gurgaon

Practice Focus

Computers and Electronics

Harshit handles patent drafting, prosecution, and searching in the areas of computer science, electronics, and communication engineering.

He has experience working across a wide range of technology domains including artificial intelligence, machine learning, electric vehicles, computer networking, image processing, Internet of Things (IoT), RFID systems, sensor technologies, 4G and 5G mobile communications, mobile and web applications, semiconductors, biomedical devices, and autonomous vehicles.

Harshit works with corporate clients, foreign associates, multinational companies, MSMEs, start-ups, and educational institutions and universities to support patent protection efforts in India and abroad.

In his previous roles, he was involved in patent drafting, prosecution, and conducting patentability searches at an intellectual property advisory and consulting firm.
