Bangalore

Practice Focus

Computers and Electronics

Sheetal's expertise lies across multi-sector technology domains including Artificial Intelligence (AI), Machine Learning (ML), Image Processing, Video Processing, Computing, Cybersecurity, Blockchain, Data Management, IoT, Communication protocols, AR/VR, Semiconductors, Software Engineering, Automobiles, Medical Devices, and Automation.

She handles Indian patent prosecution, including preparation of FER responses and hearing strategies, and conducts prior art searches. Her experience also includes drafting complete specifications, provisional specifications, and defensive patent drafting in the areas of computer science, electronics, and telecommunications.

In her previous roles, Sheetal assisted clients with technology scouting opinions and worked on prior art searches, freedom-to-operate analyses (FTOs), infringement analysis, U.S. office action responses, and U.S. patent drafting.
