

SRIDHAR R

Partner - Biotechnology & Biosciences, Plant variety, Biodiversity

Sridhar specializes in patent matters across biotechnology, molecular biology, pharmaceuticals, chemistry, material science, and related fields. He has handled patents involving peptides, antibodies, formulations, diagnostics, bioinformatics, graphene, metallurgy, polymers, and petroleum refining. His work includes patent drafting, prosecution (domestic and international), oppositions, appeals, and legal opinions on patentability, FTO, invalidation, and due diligence. Sridhar also advises on the Biological Diversity Act, appears before the Indian Patent Office and NBA, and conducts IP training for industries and academia. Prior to joining the firm, he was a researcher at a leading biotech company in Bangalore.

QUALIFICATIONS

- LL.B
- M.Sc (Biotechnology) – Bangalore University
- B.Sc (Chemistry, Zoology and Biotechnology) - Bangalore University
