Hyderabad

Practice Focus

Computers and Electronics

Umadevi has been practicing in the field of intellectual property since 2025 and handles patent drafting, searching, and prosecution in the areas of electronics, communications, and computer engineering in India as well as foreign jurisdictions.

She has experience working across a wide range of technology domains including 4G and 5G communications, smart devices, image processing techniques, power generation and transmission systems, artificial intelligence (AI), SaaS products, machine learning, data classification, antenna systems, embedded systems, computer networking, cloud computing, data structures, data analytics, digital payments, IoT devices, electric vehicles, streaming media technologies, audio and video codecs, mobile applications, and blockchain.

She also engages with clients at various stages of patent prosecution and patent searching to understand technical disclosures and support the patent protection process.
