Practice Focus

Patents (Computers and Electronics)

Ankit Rawat is a Senior Associate in the Hi-Tech team, based out of K&S Partners' Gurgaon office. He has been a Patent Professional since 2020. Ankit handles patent drafting, filing and prosecution in the areas of computer science, computer networks, computer applications and software, electronics and communication, machine learning, automotive system, artificial intelligence, telecommunication, mobile applications, network security, embedded system, data protection, data management, and industrial automation.

He also provides opinion on patentability searches and oppositions matters.

He works with corporate clients, foreign associates, multinationals, MSMEs and start-ups to obtain patent protection both in India and outside India.

He regularly appears before the Indian Patent Office in connection with hearings and prosecution of patent applications.
